

OCTOBER: IT'S LUMINARIUM TIME!

THE LARGEST EVENT ON SCIENCE AND SPIRITUALITY IN BRAZIL

(By: Vera Pinheiro)

This is the **2nd International Congress on Science, Consciousness and Spirituality** and already is a reference among professionals in the field of Integrative Medicine and Quantum Activism. Luminarium, which this year will be online, will have more than 60 national and international speakers and will take place from October 27th to November 1st.

The Awakening of a New Consciousness is what the second edition of the Luminarium Congress proposes, which innovates with a revolutionary approach in the scientific evolution of the consciousness concept to the improvement of the human being, focusing on physical, emotional and mental health.

More than 60 specialists from different countries will speak at the Congress which for six days will present the most advanced benefits of "Science and Spirituality" combination in the field of Neuroscience, Psychiatry, Psychology, Epigenetics and Integrative Medicine. Enrollment is now open and must be done on the website: www.congressoluminarium.com.br. The event will be held on a high-quality user friendly digital platform with dedicated network and simultaneous translation.

"This year at the Luminarium Congress there will be great masters, doctors, researchers and national and international therapists discussing their scientific and practical experiences, favoring the complex quantum foundation understanding in a clear and simplified way for everyone", says Cristina Rohr, PhD in integrative medicine and content consultant for the Luminarium Congress.

Luminarium's opening is on October 27 with the panel "Sensitivity, consciousness and subjectivities". The speakers are: Izabella Camargo (Journalist), Regina Restelli (Quantum Therapist), Flavia Fernandes (Certified Access Consciousness Facilitator), Sandra Rebello (Psychologist and Psychotherapist), Nathalie Favaron (Therapist and Coach), Ernani Fornari (Holistic Therapist), Daniela Benzecry (Jungian Doctor and Analyst), Yael Cayenne (Professor at the Kabbalah Center) and Roberto Crema (Rector

of UNIPAZ). They will respectively address the following themes: "How to find limits in a world without limits"; "Virtues x Habits"; "It is time for us to wake up our wisdom"; "How to recreate your reality based on your choice"; "A leap to fullness"; "The Challenges of being you in the new way of living"; "The use of sensitivity in the therapeutic process"; "The choice to love: developing spirituality"; and "Choices for spiritual empowerment through Kabbalah"; "Science and Consciousness: Transdisciplinary perspective challenge".

In the afternoon, it's the philosopher Lúcia Helena Galvão's turn to present a speech on conscience and philosophy of life, and Rabbi Nilton Bonder to speak about spirituality, the soul and its deviations. At night, as on all the following nights of the Congress, there will be a worldwide meditation on love and peace for humanity and the planet. On this first night, the meditation will be conducted by Carolina Senna, Master in Reiki and founder of the Personare Portal.

On the second day, the morning panel asks the question: "How to experience the new consciousness?" The speakers Elgina de Oliveira (Therapist), Adilson Rocha (Spiritual Therapist), Sam Prema Devi (Holistic Therapist), Desirée Oliveira (Systemic Therapist), Deva Vasant (Clinical Psychologist) and Lucília Ribeiro (Director of the Quantum Care Therapies Center) in addition to the lectures will either guide on-line experiences or participate in a chat conducted by the journalist and also speaker Izabella Camargo. In the afternoon, scientist and professor Bruce Lipton talks about Epigenetics and the influence of consciousness; and the writer and guide for the development of intuition, Penney Peirce, talks about the power of vibrational frequency, and how each of us has a personal vibration that communicates who we are to the world. In the late afternoon, Transpersonal Therapist Tadashi Kadomoto will give a lecture on meditation and actress Clarice Niskier will address the transformative experience of an immoral soul in the theater. And to wrap the day, a meditation for Love and Peace around the world guided by therapist Tadashi Kadomoto.]

On the third day, the themes deal with "Science and the mythical, transgenerational and spiritual paths". The morning speakers are: MarBrisa Oliveira (Psychologist), Dr. Mario Simões (Psychiatrist), Tony Paixão (Shamanic Ceremony Leader), Alexandre Cumino (Religion Scientist and Umbanda Priest), Letícia Tuí (Energy and Music Therapist) and Luciano Alves (Neuropsychologist and Systemic Family Therapist). In the afternoon, we will have Priscila Charbonnières' lecture (Astrologer, Life Coaching, Writer), founder of Souloop, project created to share universal knowledge and tools

LUMINARIUM

that allow a deeper understanding of the soul. Then, Integrative Physician Paul Drouin presents a lecture on the medicine of consciousness, “Health Potential and Consciousness”, a topic already studied at the Hawaiian University “Quantum University”, which is considered the only higher education institution in the world to provide on-line courses and certification in complementary, natural and integrative medicine, based on the science of Quantum Physics. Then, writer Gregg Braden, five times bestselling author by the New York Times addresses in his lecture the paradigm of consciousness and its interactive matrices. An internationally known author, Gregg is a pioneer in bridging the dialogue between Science, Spirituality and the Real World. He has dedicated himself for over 22 years to unravel the secrets of existence. Gregg Braden, in a deep work of research and self-knowledge traveled the highest mountains and the most remote monasteries in the world. The result was a series of international best sellers, such as those already translated into Portuguese: "The Divine Matrix", "Isaiah Effect" and "The Code of God". His books are published in 27 languages, available in 40 countries and prove that the key to our future lies in our past. In the evening, the Philosopher and Therapist Rex Thomas, back to Luminarium, will talk about “The Awakening of a new Being”. Ending the third day, a presentation of the “Project Noosphere” that promotes a worldwide meditation for peace in the world and the transformation of the Planet. The project is an initiative of Quantum University, with guided meditations and special online events that allow members from around the world to support each other in their healing intentions.

On the fourth day we have themes dealing with the “Medicines of Consciousness: anthroposophical, traditional Chinese, Ayurveda, Germanic and Integrative”. 12 medical speakers and a psychologist will address how body and mind intertwine, and how the Medicine of Consciousness is born based on the New Quantum Science. It is time to address that finally ancient medicines get scientific supported by the Quantum Physics. The morning panel asks the question, "What else is possible?" and presents speeches by the Mexican doctor Carlos Orozco and the Brazilians Antonio Ricardo Nahas (psychologist), Andrea Castro, Augusto Braga and Carolina Nocetti, who speaks about the clinical use of Cannabis. In the afternoon, the lectures will continue with the doctors Marcos Mundim (Homeopath, Orthomolecular and Psychiatrist), Matheus Macedo (Ayurvedic Doctor) and Eleanor Luzes (Medical Psychiatrist). Then the Panel “Integrative Medicine: meeting all its possibilities” will bring together integrative doctors Priscila de Macedo Viana Pyrrho, Fernanda Cristina Macêdo, Lygia Tereza Haack Mendonça and Eva Patrícia Baptista de Oliveira for a debate.

In the evening, we have the participation of the Pharmacist Dr. Alexandre Leonel who will speak about the direction of the Pharmacy in the face of Quantum Consciousness. Later, the creator of the therapeutic technique "Sacred Fire - Energy Alignment", Mônica Oliveira, speaks about the creative power we have to create a more conscious destiny and afterwards she leads a Healing Circle for Humanity's Consciousness.

On Saturday, the proposal is to talk about "Challenges and strategies in overcoming psychological pain". In the morning, the words are by Dr. Carlos Veiga (Doctor) and Dr. Maria Cristina de Stefano (Psychiatrist) who was invited by the Luminarium Congress to deliver the lecture "The sounds of a suicidal sign: the silent epidemic". Dr. Maria Cristina launched a website <http://www.suicidioepidemiacaalada.com.br> where she tells the story of her son, the artist Felipe De Stefano Baster Martins, who took his own life in 2012. Then, the journalist and writer André Trigueiro talks about "Strength, Courage and Faith: The art of moving forward". The lectures continue with Psychologist Tatiana Auler and Portuguese Psychoanalyst and Hypnotherapist, António D 'Ribeiro. In the afternoon, the subject is: "Cancer: body, mind and spirit under different care". Dr. José Felipe Junior gives the first lecture of the afternoon: "The multidisciplinary view on cancer". Then, Colombian doctor, Dr. Antonio Jimenez, who has reversed cases of cancer with metastasis using complementary medicine, will speak. Right after, we have Dr. Rachel Epstein, from the American Institute of Mental Imaginary (AIMI) with the lecture "Reverting cancer with mental visualization". And closing the afternoon, Dr. Paulo Cesar Fructuoso (Physician) who has already participated in the first edition returns to address the scientific and spiritual aspects of cancer. In the evening, the HeartMath Institute, an international organization that has developed scientifically validated tools to help people reduce stress will guide a meditation for Love in the world.

On Sunday, the last day of the Congress, the morning starts with a broad debate on the integrated vision in Health, with an emphasis on paradigms that will change the world. Young Vinícius Santana (Researcher of High States of Consciousness) speaks about the Flow'ir movement. Then, the Neurosurgeon and renowned Researcher of Consciousness, Dr. Francisco Di Biase, who was also a speaker at the first edition of the Congress, addresses the holographic future of Neuroscience. Afterwards, Luminarium brings teachings from the Family Constellation with Sophie Hellinger. Then, the director of the Peter Hess Brasil Academy Institute, Regina Santos, brings the experience "Peter Hess sound massage as a tool for self-knowledge and transformation". In the afternoon the debate will be, among others, with the Quantum Therapist Dr. Cristina Rohr who will address the theme "Health following the

integration of body and mind". Then, economist Carlos Ocké will give the intriguing lecture "Trust Allah, but tie your camel first: foundations of a quantum economy"; the anthropologist and physical educator, Dr. Wecisley Ribeiro do Espírito Santo presents his vision on "Love as a structuring nucleus of learning"; followed by Pastor Henrique Vieira who will talk about the spirituality of love transforming the Planet. Luminarium's guest to close the panel and connect so many addressed topics, is the psychologist Rossandro Klinjey, who talks about what blocks human beings from living the diversity to achieve a New Era. At the end of the sixth day, there will be a reading and the publication of a "Manifesto of Love and Peace for a New World".

According to Tânia Viegas, Creator and Director of Luminarium, Science and Spirituality are finally crossing paths. And in this second edition, Luminarium will bring to the public important reflections on the forces of personal power. In addition, the congress brings treatments, researches and effective and practical responses to two major maladies: cancer and suicide. "We will bring from the complementary spiritual and integrative perspectives new approaches to face the challenges of these woes. We also schedule debates that show clinical and medical views, mixed with philosophical and spiritual analysis. And all this while offering experiences and practices of feeling and re-discovering of oneself. We believe that we can create a new world, a new model of relating from pure feelings that are born through the view of oneself onto the other. This new bridge makes us capable and owners of a transformation that expands around our relationships. This is Luminarium: the emergence of a movement that proposes a new look at life", explains Viegas.

In the evenings, during the event, based on researches already published on the effects of meditations on society, Luminarium Congress intends to mobilize a national and international network for meditation for Love and Peace in the world. The lectures, experiences and chats, authorized by the speakers, will be available to the public until the next Luminarium to be held in 2021. Registration can be made on the website www.congressoluminarium.com.br. The Congress is promoted by "Orion - Um Olhar Consciente". The organization and production will be in charge of the communication company "Idealizar Faz Bem". The schedule is subject to change.
